Data Scientist

Motivated Third-year Electronics and Telecommunication Engineering student with a strong interest in Data Science, Machine Learning, and Data Analytics. Skilled in Python, SQL, and end-to-end ML workflows including data preprocessing, EDA, model building, and deployment via Streamlit. Hands-on experience delivering data-driven projects from raw data to deployed, user-facing applications.

WORK EXPERIENCE

Smart India Hackathon (SIH) Project

08/2026 - 09/2026

Participated in Smart India Hackathon, developing a machine learning solution for agricultural mandi price prediction using historical crop market data.

Machine Learning / Data Analytics Team Member • Part-time

India

Developed a machine learning model to predict crop mandi prices using historical market data. Performed data preprocessing, exploratory data analysis, feature engineering, and model evaluation. Analyzed price trends and contributed to developing a data-driven solution to support farmers and agricultural decision-making.

EDUCATION

B.E. in Electronics and Telecommunication Engineering

Pune Vidhyarthi Griha's College of Engineering • GPA: 8.5

Pune, India • 09/2024 - 06/2028

Higher Secondary Certificate (HSC)

Shreenivas Vidhyamandir • GPA: 73%

Basmat, India • 06/2022 - 06/2024

Secondary School Certificate (SSC)

Bahirji Smarak Vidhalaya • GPA: 89.80%

Basmat, India • 06/2021 - 06/2022

CERTIFICATIONS

Ultimate Job Ready Data Science Course

01/2024

CodeWithHarry

Data Analytics Job Simulation (Virtual Internship)

Deloitte

AWARDS & SCHOLARSHIPS

Exhibited strong teamwork, leadership, and discipline through active participation in district-level cricket.

PROJECTS

ShetiMitra

08/2026 - 09/2026

ShetiMitra | AgriTech Platform — Developed a digital market-linkage platform enabling farmers to discover market prices, list produce, and connect directly with buyers. Designed to reduce intermediary dependency and improve price transparency.

App Link: <https://shetimitra-sfqc.vercel.app/>

Shopya Sales Performance Dashboard

09/2026 - 09/2026

Sales Performance Dashboard | Power BI

- Built an interactive Power BI dashboard analyzing **6M revenue, 946 orders, 2K units sold, and 6.19K average order value**.
- Used **DAX and Power Query** to transform data and create KPIs for product, category, city, and pricing analysis.
- Developed interactive visuals to identify **top-performing products, categories, cities, and revenue trends**.

Github Link: <https://github.com/omkarsatpute18/Shopya-Ecommerce-Data-Analysis>

Sanjay Gandhi Pension Scheme Eligibility Checker

07/2026 – 08/2026

- Developed a machine learning model to predict pension eligibility based on applicant demographic and socio-economic information.
- Performed data preprocessing, missing value handling, categorical encoding, and feature engineering using Pandas and Scikit-learn.
- Trained and evaluated multiple classification algorithms, selecting the best-performing model based on accuracy and performance metrics.
- Built an interactive web application using Streamlit to enable users to check pension eligibility through a simple interface.
- Deployed the application with an intuitive user experience, enabling real-time eligibility prediction and improving accessibility for end users.

Website Link: <https://sanjay-gandhi-pension-eligibility-c.vercel.app/>

BingePlay Streaming Analytics Dashboard | Python, Pandas, MySQL, SQLAlchemy

Engineered a data analytics pipeline to derive business insights from a subscription-based streaming platform's user, revenue, and engagement data.

- Formulated complex SQL queries using CTEs (Common Table Expressions) and window functions to analyze subscription revenue, signup trends, and device-wise engagement metrics.
- Devised churn-detection logic by tracking month-over-month watch-time fluctuations, identifying users with a 50%+ drop in activity to flag attrition risk.
- Computed user retention patterns through consecutive-week streak analysis, pinpointing the most consistently engaged users on the platform.
- Investigated content performance by comparing original versus acquired shows across IMDb ratings and release trends, informing content strategy.
- Utilized Pandas and SQLAlchemy to connect Python with a MySQL database, enabling efficient data extraction, transformation, and reporting.

Github Link: <https://github.com/omkarsatpute18/BingePlay-Streaming-Analytics-Project>

RedFlag – Transaction Fraud Detection System | SQL, MySQL

Designed and executed a rule-based fraud detection system to identify 12 distinct fraudulent transaction patterns across a large-scale transactional dataset.

- Architected complex SQL queries using window functions (LAG, ROW_NUMBER) and CTEs to detect velocity fraud, flagging users with abnormally high transaction frequency within a single day or month.
- Diagnosed card-testing and structuring behavior by isolating small-value probe transactions and just-under-threshold amounts used to evade KYC compliance checks.
- Uncovered mule account activity and merchant collusion by analyzing credit-debit transaction ratios and computing revenue concentration among top users per merchant.
- Detected geographic impossibility fraud by comparing consecutive transaction locations and timestamps to flag physically implausible user activity.
- Profiled dormant-then-active and odd-hour transaction behavior to surface accounts resuming suspicious activity after long inactivity or transacting outside typical regional hours.
- Validated each fraud pattern against expected suspect ranges, achieving detection accuracy consistent with projected fraud volume across all 12 rule sets.

SKILLS

Programming Languages: Python, SQL

Frameworks & Libraries: Beautiful Soup, Excel, Matplotlib, NumPy, Pandas, PowerBI, PyTorch, Scikit-learn, Seaborn, Selenium, Streamlit, Tableau, TensorFlow

Databases: MySQL

Tools & Platforms: Git, GitHub, Google Colab, Hugging Face, Jupyter Lab

Core Competencies: Data Preprocessing & Feature Engineering, Data Visualization, Exploratory Data Analysis (EDA), Machine Learning, Model Evaluation, Web App Deployment

Soft Skills: Communication, Leadership, Problem Solving, Teamwork

Languages: English, Hindi
